LIMITED WARRANTY

Perma-Vault Safe Company warrants your equipment to be free from defects in material and workmanship under normal use from the date of purchase for a period of 1 year. Such defects will be repaired or replaced provided the equipment has been authorized for return by Perma-Vault Safe Company and is returned prepaid. Service and adjustments for normal use will be made without charge within warranty period. Thereafter, repairs will be made at the established factory price.

This warranty does not apply to equipment showing abuse or damage, or to parts, which in the judgment of Perma-Vault Safe Company are not defective. Nor does it extend to any equipment, which may have been tampered with, altered or repaired outside the factory. Your unit may be returned properly packaged. Any damage caused by failure to observe proper packing or observing instructions for installation, operation and maintenance as contained in the instructions furnished with each unit, by accident in transit or elsewhere, will not be covered by warranty. Shipment to Perma-Vault Safe Company must be prepaid.

This warranty is in lieu of all other warranties expressed or implied, and no one is authorized to assume any liability on behalf of Perma-Vault Safe Company or impose any obligation on it in connection with the sales of any equipment other than that outlined above. In no event will responsibility be assumed or implied for consequential damages arising from interrupted operator or other causes.

This warranty is conditioned on and becomes effective ONLY IF THE PURCHASER FILLS OUT AND RETURNS THE REGISTRATION CARD within 15 days from the date of purchase.

Cut along lines and mail this registration

WARRANTY REGISTRATION

IMPORTANT: this section of the warranty must be completed and sent to Perma-Vault Safe Company within 15 days of purchase. Failure to do so may invalidate the terms of warranty. Please note that the date of the purchase entered on this section must be the same as the date entered on the section retained by you for your files.

INSTALLATION INSTRUCTIONS

A: For installation in concrete

1. Place vault into position where it is to be installed (vault may be installed either horizontally, or vertically)
2. Using pre-drilled holes as a template, mark holes to assure proper placement.
3. Using a 3/8" masonry drill bit, drill hole approximately 1-3/8" deep.
4. Insert a concrete expansion fastener (not included) into hole, tapping lightly until all but 1/2" of concrete expansion fastener (not included) is secure in hole.
5. Remove nuts and washers from concrete expansion fasteners (not included), place vault over bolts, replace nuts and washers and tighten until vault is secure.

B: For installation on shelving:

Same as A above, but use 3/8" carriage bolts (not included). Insert carriage bolts from the bottom of decking or shelving and install nuts (not supplied) from inside the vault.

C: For installation on dry wall or hollow wall:

Same as A above, using 3/8" toggle bolts (not included).

D: For installation on wood floors:

Same as A above, using 3/8" x 1-1/2" lag bolts (not supplied).

E: For In-Wall safe installation:

Please see specific wall safe instructions included with your safe.

IMPORTANT NOTICE

Before drilling, check for electrical wires and water pipes, which may be concealed in walls in floors.

FOR MAXIMUM SECURITY, Install your Perma-Vault in an inconspicuous area. Statistics show that the master bedroom and dining room are the prime target areas for theft.
